Attacking the Heart of the German Industry

Kaspersky discovered a cyberespionage campaign that has been ongoing for businesses all over the world. Winnti, likewise to be conducted by a Chinese-speaking group, has been active since at least 2009 and has attacked hundreds of companies and over 30 governments. Our report covers the Winnti activities in the German market. Alongside the technical details, we also provide a brief overview of the Winnti group's activities in other countries.
