Simply because you dont go to a pally or arab site to get Israeli pov Hamas deserves what they are getting. By extension the civilians voted to exterminate jews. Nevermind that most of you all are off topic. Tim August 1, 2014 at 5:53 am How ignorant can someone get...it's an anti-missile system targeting rockets in the sky Some people develop rockets to kill people and some people develop rockets to propeople but I guess logic is not the best expertise of the Ignorant Norman August 19, 2014 at 9:32 pm You mean Hamas terrorists hiding behind "Palestinian civilians"? July 31, 2014 at 3:16 ar We believe the industry's fate largely depends on Pentagon's decisions on how it will modernize U.S. forces to confront future threats. In its Cold War heyday, the Pentagon was the leading developer of cutting-edge technology and still commands the world's most advanced military force. But at the same time, it has created self-defeating mechanisms

that quash innovation and fail to capitalize on available opportunities. The United States is still way ahead of competitors in areas such as fighter aircraft and submarines. But there are segments of the weapons market such as ballistic missiles and cruise missiles where other people are doing quite well compared to us.

Common Sense, the innocent civilians are in Israel. True. Innocent civilians live in Gaza, too. Somehow 1200 of them who got killed in the last ten days used to live in former mentioned area, not Israel. And how many wounded on top?

What kind of state is defending itself by obliterating and murdering civilian population? If "Iron Dome" is so effective, Israel doesn't have to fear of few home made projectiles. Or, perhaps Chinese hackers infiltrated the rockets systems and are shooting Gaza on their own accord? Mario, don't you know that "the innocent civilians" are ONLY live in Israel? LOL. The civilian and children in Gaza were NOT the innocent civilian and not innocent children. That's why Israel kill all not innocent children and not innocent civilians in Gaza. Israel has New High Tech of War, they sent text message to ALL not innocent civilians/children in Gaza, to hide in school, so Israel can shoot missile on civilian and children and kill all of them at once.

Mario I Totally Agree With You... Some Jews Infact Zionists Are Hit With Myopia So It's Actually Hard For Them To Swallow The Truth Or Even Hear It... I Don't Remember If I Heard Of Any Of Hamas's Rocket Killing a Israeli Citizen But At The Same Time I've Never Heard Of An Israeli Rocket/Shell Fire Missing Any Of It's Innocent Civilian Targets... I've Friends In Gaza n When Is Ask Them Nicely "Hey, What's Up?:)"

sorry dude but your comment is really unreadable, with so many capital letters. If you are not aware, please have a look to <a href="https://www.ietf.org/rfc/rfc1855.txt">https://www.ietf.org/rfc/rfc1855.txt</a>

Thank you for the website. I looked up the 1948 Palestine exodus and the massacre at Dier Yassin in a search engine. What terrible tragedies. Many people want to make one side the 'bad guy', but they don't want to quit pointing fingers and dropping bombs long enough to work for Peace. Peace is possible – but it is so much easier to take sides and hate each other!!! If only those pesky hackers had convinced a rich sugar daddy to build the children of Gazza a rocket defence system. I hear the NSA are looking for new PR people, is this part of the interview process Brian? kimsunam August 1, 2014 at 4:26 am It seems that Countries always like to spy on each other, looks like they need more

security. Actually, there is no real security for today's people all use the internet to do whatever they want. But some software can be legal or also illegal to use, like Micro

"When Israel, in the occupied territories now, claim that they have to defend themselves, they are defending themselves in the sense that any military occupier has to defend itself against the population that they're crushing." – Noam Chomsky Right. Take an outdated citation of a self-hating Jew leftist activist like it manything. For your information, Israel has withdrawn its troops and settlers from in 2005. Is it time for you to get back in touch with the reality? Mario August 1, 2014 at 9:40 an "Palestine belongs to the Arabs in the same sense that England belongs to the English or France to the French. It is wrong and inhuman to impose the Jews on t Arabs... Surely it would be a crime against humanity to reduce the proud Arabs that Palestine can be restored to the Jews partly or wholly as their national home"

Cit. John (August 3, 2014 at 12:31 pm) I'm pretty sure that stopping the illegal occupation of Palestinian land by Israel would be the best solution. Sorry John, I have to do it, your comment is brilliant!
